

## **Welcome Ladies & Gents to the very first Ampteam Newsletter**

*On the Agenda is a review of our very first corporate event, our new product “RETRO”, ecoSHOWCASE at Wembley Stadium and our very first Parliamentary Review; but first a note from our MD – Bob Mantle.*

*Hi guys, welcome to our first newsletter to keep you up to date with what is happening at Ampteam and our intentions for the future.*

*Unifold® continues to show its complete reliability and its popularity is growing nicely, as is our “cheaper” version Eco-Liner and our confidence with the newer system has prompted us to increase its guarantee from 10 years to 15 years from the 1st July this year. I hope this news will be welcomed by you all.*

*Contractor Training continues to be a very important part of Unifold® Company policy and since its introduction we have now trained over 500 of your valued operatives who all seem to have appreciated the experience.*

*I would urge you all to consider any of your people who have not been officially trained to do so, even those “old stagers” who have been installing Unifold® for years will certainly learn something as the system is now so extensive, plus the importance of the issue of the card is also gaining ground as it is our intention to include this as an essential part of the Unifold® guarantee scheme.*

*We are training in Dudley at least every two weeks with the facility already in place to increase this to every week, so, please make use of it, it’s free of charge and after all, it is there for your benefit as well as ours.*

*During March an “out of the blue” or should I say Ethernet, we were invited by the Government no less to contribute to the 2017 Parliamentary Review.*

*How or why I have no idea but never missing the chance to “blow our own trumpet” we agreed.*

*Our part in the review is now complete, bar a few photographs; and the complete review is to be published later this year.*

*We are promised ample supplies and we will let you know when these are available and if you would like a copy then we will send you one.*

*In order to show our appreciation and gratitude to both our customers and suppliers we held our first ever corporate event during early March and it was a great success.*

*We wish to demonstrate the value we place on the loyalty you show in continuing to use our products and partnering us in our endeavours to provide the very best that we can, so this will be repeated in all areas of the country.*

*So, Ampteam Corporate will be hosting an event near you, probably very soon.*

*I sincerely hope, when invited, you will accept and enjoy.*

*My best wishes to you all,*

*Bob*

## **OUR FIRST EVER CORPORATE EVENT DAY**

We decided at the beginning of the year to run a series of corporate events throughout the UK to say "Thank you" to our loyal customers who have supported us year in and year out through our 19 years in business.

We started in the Midlands, where we are based and arranged, after much deliberation, a clay pigeon shooting event at "T.J Hale" shooting ground in Kinver, near Stourbridge, and our local customers & suppliers were invited.

The event was held on Saturday 4th March & started with a good fry up for energy before the 2 hour shooting session began.

Attendees were split into amateur and professional groups and awards were given to the overall winners at the end.

It was a great morning one which all in attendance thoroughly enjoyed as you can see in the picture 😊

Corporate events will follow in the South and North of the country to encompass all of our valued customers.

## **UNIFOLD-RETRO™ - A RETRO INSULATED GUTTER SYSTEM**

Ampteam have introduced Unifold-Retro™, a site installed **insulated** gutter system based on the successful Unifold® gutter lining system.

Fitted following completion of the roof installation and either using the existing gutter or a new carrier tray Unifold-Retro™ will provide the client with a brand new **insulated** gutter system which has not been trafficked throughout the construction programme.

Ampteam will be offering a design service with this system.

New literature will be despatched once available.

## **AMPTEAM AT ecoSHOWCASE at WEMBLEY STADIUM ON 23RD MAY**

Ampteam are exhibiting at Wembley Stadium at one of the ecoSHOWCASE road shows, a unique series of one-day events, hosted in regional cities, where business specifiers and buyers can meet experts and suppliers of cutting edge sustainable building products and solutions.

With an informal exhibition and a series of 30 minute educational seminars, we'll provide advice and guidance on how you can play your part in creating a more sustainable built environment. Combining inspirational ideas and practical solutions.

**THE PARLIAMENTARY REVIEW 2016-2017**

*Finally Ampteam was given the honour of being involved in the Parliamentary Review which is an annual initiative released to coincide with the beginning of the Parliamentary year.*

*Each of its twelve separate editions focuses on a key governmental policy area, with leading organisations and executives sharing personal insight and discussing good practice alongside Cabinet and senior ministers.*

*By combining commentaries from award-winning journalists with innovative thinking from industry experts, The Parliamentary Review provides a comprehensive summary of the past year and a reliable template for the year to come.*

*Five bespoke documents draw attention to the richness of British Manufacturing. Philip Hammond is joined by Terry Scuoler, Ian Wright, Steve Elliott and a host of outstanding organisations to look back on a challenging but successful year.*

**Eco-Liner**

*As a final note, we have decided from the 1<sup>st</sup> of July 2017 to increase the length of the guarantee for our cost effective Eco-Liner system from 10 years to 15 years materials only.*

*We hope you have enjoyed our first newsletter, any comments on this or suggestions for our next would be welcomed. 😊*
